

Hello 3B

How you all?

We haven't been a class together for a long time. I know you have been busy doing Year 3 learning and I have loved seeing all the Roman and dinosaur things you have sent in or completed in school. Has yours been added to the QI Gallery on our website yet?

As well as the learning, what have you been doing in your spare time?

I have been trying to grow new plants and do more outdoor activities whilst encouraging Paddy (the dog) to get fit, stay out of muddy ditches and not join other people's picnics!

Have you tried anything new? What has been your favourite activity?

Please send me a slide (like mine – see the template file) with a picture and short description or message that I can share with all the other children in our class. You can change the colours and fonts. If you cannot use the PowerPoint slide template, just send me a word document or text in an email with an image. **You need to have your parent's permission if you wish to add any pictures with you (or your family) in them as we will be sharing them.**

Please email your message to me by Friday this week and I will put all the slides together and email a PowerPoint back to you with our whole **class's** messages and images next week.

I look forward to seeing your contributions.

Hello 3B, I hope you are all busy and safe.

Paddy is still loving spending time outdoors. In the morning, he has to look after the new plants in the garden and guard them from all the birds and cats. I have told him not to water the plants because that's my job! Afterwards, he still likes to do his doggy learning online so he can grow his brain. He now knows that the French word for dog is 'chien'. One day, he would like to visit France and try out his French.

In the afternoon, he goes to the park to meet his friends and run around in circles or now he can sometimes go and play in their house!

When he gets home and we have cleaned his paws, he needs a snack! In the evening, he needs to rest in his bed so that he is ready for another day. He loves sleeping (and snoring) in his new bed!

In the photos, Paddy is very busy gardening and growing his brain. Once he has done this, he plays with his friend Poppy. In the last photo, he's ready for a sleep!
