+ 200	+ 40	+ 7																															
800	+ 70	+ 13	= 883																														
H	T	O																															
																																	
																																	
800	+ 70	+ 13	= 883																														

Important information

Friendly addition calculations do not cross the 10s or 100s boundary.

For example; 326 + 543 or 417 + 371

Unfriendly addition calculations cross the 10s or 100s boundary.

For example; 257 + 439 (crosses the 10s boundary) or 682 + 264 (crosses the 100s boundary)

1) Sort the following calculations into friendly and unfriendly.

248 + 536 =

214 + 352 =

473 + 315 =

681 + 274 =

<u>Friendly</u>	<u>Unfriendly</u>

2) Solve these Emoji code-breaking calculations in your book, using the expanded column method.

									
5	2	7	3	4	9	6	8	0	1

a)    +    =

b)    +    =

c)    +    =

- 3) The table shows the number of boys and girls in 2 schools.

	Boys	Girls
School A	224	305
School B	400	

- a) The total number of children in each school is equal.

Without working it out, which school has the most girls?

How do you know?

- b) How many girls are there in school B?

- 4) Jane says $276 + 145$ equals 411. Is she correct? Explain how you know.

$$\begin{array}{r} 200 + 70 + 6 \\ + 100 + 40 + 5 \\ \hline 300 + 100 + 11 = 411 \end{array}$$

- 5) Here is an addition pyramid.

Add the two numbers below to make the number above.

- a) Complete the addition pyramid.

- 6) Which question is harder: $340 + 130$ or $67 + 76$? Explain your opinion.

Lesson 2 – Subtract friendly numbers with three digits, using expanded column method.

EXPANDED COLUMN SUBTRACTION

PICTORIAL REPRESENTATION

$268 - 146 = 122$ <table style="margin-left: 40px; border-collapse: collapse;"> <tr> <td style="text-align: center; color: red; font-weight: bold; padding: 0 10px;">H</td> <td style="text-align: center; color: orange; font-weight: bold; padding: 0 10px;">T</td> <td style="text-align: center; color: green; font-weight: bold; padding: 0 10px;">O</td> <td></td> </tr> <tr> <td style="text-align: center;">200</td> <td style="text-align: center;">+ 60</td> <td style="text-align: center;">+ 8</td> <td></td> </tr> <tr> <td style="text-align: center;">- 100</td> <td style="text-align: center;">+ 40</td> <td style="text-align: center;">+ 6</td> <td></td> </tr> <tr> <td colspan="4" style="border-top: 1px solid black; text-align: center;">100 + 20 + 2 = 122</td> </tr> </table>	H	T	O		200	+ 60	+ 8		- 100	+ 40	+ 6		100 + 20 + 2 = 122				<table style="width: 100%; border-collapse: collapse; text-align: center;"> <tr> <td style="width: 33%; color: red; font-weight: bold;">H</td> <td style="width: 33%; color: orange; font-weight: bold;">T</td> <td style="width: 33%; color: green; font-weight: bold;">O</td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td style="border: 1px solid black; padding: 5px;">-100</td> <td style="border: 1px solid black; padding: 5px;">- 40</td> <td style="border: 1px solid black; padding: 5px;">- 6</td> <td></td> </tr> <tr> <td style="border: 1px solid black; padding: 5px; color: red; font-weight: bold;">100</td> <td style="border: 1px solid black; padding: 5px; color: orange; font-weight: bold;">+ 20</td> <td style="border: 1px solid black; padding: 5px; color: green; font-weight: bold;">+ 2</td> <td style="font-size: 2em; font-weight: bold;">= 122</td> </tr> </table>	H	T	O						-100	- 40	- 6		100	+ 20	+ 2	= 122

100	+ 20	+ 2	= 122																														

1) Solve these Emoji code-breaking calculations in your book, using the expanded column method.

5	2	7	3	4	9	6	8	0	1

- a) - =
- b) - =
- c) - =

2) There are 849 people at a concert.

There are 625 adults at the concert.

a) How many children are at the concert?

b) How many more adults than children are at the concert?

- 3) A TV cost £125 less than this computer.
How much does the TV cost?

- 4) Complete the part-whole models.

a)

b)

- 5) Dan saved £547 in his bank account. He spent £215. Does the subtraction below show how much he has left? Explain your answer.

$$547 - 215 = 333$$

- 6) Create your own word problem for the calculation below then solve it.

$$£826 - £325 =$$

Lesson 3 – Subtract unfriendly numbers with three digits, using expanded column method.

EXPANDED COLUMN SUBTRACTION

Unfriendly **ones**

Unfriendly **tens**

$381 - 157$ <table style="margin-left: auto; margin-right: auto; text-align: center;"> <tr> <td></td> <td>H</td> <td>T</td> <td>O</td> </tr> <tr> <td></td> <td></td> <td>70</td> <td>1</td> </tr> <tr> <td></td> <td>300</td> <td>80</td> <td>1</td> </tr> <tr> <td>-</td> <td>100</td> <td>50</td> <td>7</td> </tr> <tr> <td></td> <td colspan="3"><hr/></td> </tr> <tr> <td></td> <td>200</td> <td>+ 20</td> <td>+ 4 = 224</td> </tr> </table>		H	T	O			70	1		300	80	1	-	100	50	7		<hr/>				200	+ 20	+ 4 = 224	$345 - 163$ <table style="margin-left: auto; margin-right: auto; text-align: center;"> <tr> <td></td> <td>H</td> <td>T</td> <td>O</td> </tr> <tr> <td></td> <td>200</td> <td>1</td> <td></td> </tr> <tr> <td></td> <td>300</td> <td>40</td> <td>5</td> </tr> <tr> <td>-</td> <td>100</td> <td>60</td> <td>3</td> </tr> <tr> <td></td> <td colspan="3"><hr/></td> </tr> <tr> <td></td> <td>100</td> <td>+ 80</td> <td>+ 2 = 182</td> </tr> </table>		H	T	O		200	1			300	40	5	-	100	60	3		<hr/>				100	+ 80	+ 2 = 182

	300	80	1																																														
-	100	50	7																																														
	<hr/>																																																
	200	+ 20	+ 4 = 224																																														
	H	T	O																																														
	200	1																																															
	300	40	5																																														
-	100	60	3																																														
	<hr/>																																																
	100	+ 80	+ 2 = 182																																														

Important information

Friendly subtraction calculations do not cross the 10s or 100s boundary.

For example; 576 - 523 or 687 + 351

Unfriendly subtraction calculations cross the 10s or 100s boundary.

For example; 757 + 439 (not enough ones) or 632 - 264 (not enough tens)

When it is unfriendly, you will need to **exchange** the 10s or the 100s.

1) Sort the following calculations into friendly and unfriendly.

748 - 536 =

514 - 352 =

873 + 315 =

689 - 274 =

<u>Friendly</u>	<u>Unfriendly</u>

2) Solve these **unfriendly** Emoji code-breaking calculations in your book, **using the expanded column method.**

									
5	2	7	3	4	9	6	8	0	1

a)    -    =

b)    -    =

c)    -    =

- 3) Two points are marked on a number line.

What is the difference between the two points?

- 4) Find the missing numbers.

a) $179 + \boxed{} = 595$

b) $718 - \boxed{} = 348$

- 5) Here are 3 buildings.

- A is 150 m tall
- B is 317 m taller than A
- C is 223 m shorter than B

How much taller is C than A?

- 6) Create your own word problem for the calculation below then solve it.

$£626 - £345$

Lesson 4 - Add and subtract numbers with three digits.

Important information

Friendly calculations do not cross the 10s or 100s boundary.

For example; $326 + 543$ or $457 - 321$

Unfriendly calculations cross the 10s or 100s boundary.

For example; $257 + 439$ (crosses the 10s boundary) or $682 + 264$ (crosses the 100s boundary)

For example; $652 - 237$ (involves exchanging the 10s) or $732 - 361$ (involves exchanging the 100s)

1) Sort the following calculations into friendly and unfriendly.

$318 + 267 =$

$654 - 138 =$

$283 + 362 =$

$674 - 254 =$

$728 - 361 =$

$234 + 365 =$

$837 - 412 =$

$641 - 430 =$

<u>Friendly</u>	<u>Unfriendly</u>

Don't forget to **RUCSAC**

2) Ben's dad drives 267 miles to work and then he drives 267 miles home again. How many miles does he drive altogether?

3) A school has a target of raising £475 for a local charity. So far, they have raised £147. How much more is there to raise to reach the target?

4) A school prints 482 letters for parents. 159 letters are given out on Wednesday and 178 are given out on Thursday. How many letters are left to give out on Friday?

5) Write your own addition worded problem for this bar model then solve it.

382	453

6) Write your own subtraction worded problem for this bar model then solve it.

423	
179	

Challenge: Can you check each of your calculations using the **inverse operation**?
